

Objectives of Soccer

Soccer is a simple game with simple objectives:

- If you have the ball, keep the ball.
 - Move the ball down the field.
 - Put the ball in the goal.
-
- If you don't have the ball, get the ball.
 - Delay the attack.
 - Keep them from putting the ball in the goal.

But...your priorities change depending on where you are on the field.

Take more risks when you are close to their goal.
Take fewer risks when you are close to ours.

Objectives of Soccer
